Each year the National Federation of Business and Professional Women's Clubs, Inc., celebrates Girls' Week—a week set aside for businesses and schools to jointly promote education and training.

Members of the B and PW organization believe that the education and training of the young woman for entry into business and professions is a problem not only of the schools but of those people who are actually in the working field.

Los Angeles County is observing March 16-22 as Girls' Week and the Torrance Business and Professional Women's Club will start local festivities tomorrow night at their meeting with a group of high school students.

The students will tour businesses, professions, industry and government offices the following four days.

The coeds will get first-hand information concerning their chosen fields.
